
14 September 1960

MEMORANDUM FOR : CA DEPUTIES, ALL OPERATING
DIVISIONS

**SUBJECT : Director's Address to the Veterans
of Foreign Wars**

1. We are transmitting herewith a copy of the speech made by the Director at the Veterans' of Foreign Wars Convention in Detroit on 22 August 1960. It is, in essence, a forceful indictment of the present threat of World Communism: while addressed to an American audience, it contains lessons applicable virtually anywhere.

2. Since this was a public speech, the text is, of course, UNCLASSIFIED. On the other hand, a speech by the DCI does not lend itself directly to covert propaganda exploitation: you might, however, wish to send it to selected field stations, either for their own information or for the briefing of some fully witting agents; copies may also be passed to Liaison or as background information to political action contacts, at your discretion. It must not be reprinted, however, in unattributed media or given to agents who are not fully aware of the true affiliation of our representative.

3. Order additional copies from this office, 2514-K, x-3397. Information about any use or effect of the transmittal of this text will be appreciated.
